How to use the radiator knob in your college

Higher numbers correspond with higher temperatures. To select a number, line it up with the reference mark on the knob. Refer to the photos below.

To turn the radiator off, select the snowflake. Do this before opening your windows!

After making a change, allow the valve to stabilize for at least 30 minutes. If you have questions, contact your Facilities Superintendent.

TYPE 1:

TYPE 2:
TYPE 3 (Scale from 0-9):

TYPE 4 (Reference mark is on the knob):
